REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)
344742000530

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,961,672, granted October 5, 1999, and for which a reissue patent is sought on the invention entitled STABILIZED ANODE FOR LITHIUM-POLYMER BATTERIES the specification of which

☐ is attached hereto.

☒ was filed on January 24, 2001 as reissue application number 09/768,636 and was amended on January 24, 2001.

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The patentees claimed less than they had a right to claim. As one instance of claiming less than there was a right to claim, patentees had a right to claim an electrochemical cell, comprising a lithium electrode and a sulfur electrode including at least one of elemental sulfur, lithium sulfide, and a lithium polysulfide, said lithium electrode having a lithium metal electrode surface including a surface coating that is effective to increase the cycling efficiency of said electrochemical cell, as presented in new claim 56, which was not claimed in the issued patent.
